ROBY AJITH

Senior Technical Communication Specialist | AI-Enhanced Documentation Leader

roby.ajith@gmail.com | +91-9562464948 | Bengaluru, Karnataka, India
LinkedIn | B1/B2 US VISA (Valid till Mar 2025)

PROFESSIONAL SUMMARY

Strategic and performance-driven Technical Communication Leader with **15+ years of progressive experience** in technical documentation, AI-augmented content development, and cross-functional team leadership across telecom, cloud, and enterprise software domains. Proven expertise in modernizing documentation workflows using AI-powered tools (Cursor, Windsurf, GitHub Copilot) to accelerate content delivery by 40% while maintaining quality standards. Expert in DITA XML authoring, Agile documentation practices, and leading distributed teams across US, Germany, and Finland.

Core Value Proposition:

- AI-enhanced documentation workflows leveraging Cursor, Windsurf, and GitHub Copilot for code documentation, API reference generation, and automated content structuring
- Spearheaded end-to-end documentation projects from requirement gathering to delivery, consistently meeting aggressive timelines in fast-paced Agile environments
- Certified Scrum Master with SAFe Product Owner expertise, leading multiple cross-functional Agile teams
- Championed DITA migration projects for 9+ products, establishing reusable content frameworks and reducing documentation time by 35%

CORE COMPETENCIES

Documentation & Content	AI & Automation Tools
DITA XML Architecture	Cursor AI (Code & Doc Generation)
API Documentation	Windsurf (Agentic AI Workflows)
Cloud Documentation (AWS, Kubernetes)	GitHub Copilot (Assisted Authoring)
Developer Documentation	Documentation Automation
Video Production & Storyboarding	Markdown & Static Site Generators
Agile & Project Management	**Technical Proficiency**
Scrum Master (CSM Certified)	Python, C, C++, Java
SAFe Product Owner	Git, GitHub, GitLab, Gerrit
JIRA, Confluence Project Tracking	Linux & Windows Administration
Stakeholder Management	CI/CD Pipelines (Jenkins, GitLab CI)
Cross-functional Team Leadership	REST APIs, Microservices

TECHNICAL SKILLSET

Authoring & Publishing: Oxygen XML Author, Markdown, Author-it, Arbortext Editor, Adobe FrameMaker, RoboHelp, Confluence, MadCap Flare

AI-Powered Documentation Tools: Cursor (contextual code documentation), Windsurf (agentic workflow automation), GitHub Copilot (AI pair programming for docs), ChatGPT/Claude (content generation)

Project Tracking & Version Control: JIRA, GitHub, Git, Gerrit, GitLab, SVN, Bitbucket

Video Production: Camtasia, Adobe Captivate, OBS Studio

Design & Prototyping: Figma, Adobe Creative Suite

Programming & Scripting: Python (automation scripts), C/C++, Java, Shell scripting

Platforms: Microsoft Office Suite, SharePoint, Confluence, AWS, Kubernetes

---

PROFESSIONAL EXPERIENCE

Nokia | Technical Communication Specialist *(Apr 2022 – Present)*

Bengaluru, Karnataka

Leading documentation strategy for next-generation telecom orchestration and cloud-native solutions, modernizing documentation workflows with AI-powered tools and Agile best practices.

AI-Enhanced Documentation Innovation:

- Pioneered AI-augmented documentation workflow using **Cursor and Windsurf**, reducing API documentation time by **40%** while improving accuracy through automated code-to-docs generation for microservices architecture
- Integrated **GitHub Copilot** into team workflows for generating boilerplate documentation, code samples, and troubleshooting guides, accelerating content creation by **30%**
- Developed Python automation scripts leveraging AI tools to extract metadata from Kubernetes configurations and auto-generate deployment guides, saving **15 hours per release cycle**
- Led workshops on "AI in Technical Documentation" demonstrating practical applications of Cursor, Windsurf, and GitHub Copilot to 50+ documentation and R&D team members

Documentation Leadership & Delivery:

- Architected comprehensive documentation suite for Telecom Orchestration & Fulfillment Solution on Kubernetes and

AnyCloud, including Installation Guides, Security Hardening Guides, API References, and Solution Documentation
- Delivered end-to-end documentation for cloud-native telecom solutions, covering OSS/BSS integration, network slicing, and 5G core network functions
- Designed and implemented reusable DITA templates and content chunks, establishing consistent documentation patterns across 12+ product lines
- Conducted internal and external documentation surveys to measure user satisfaction, achieving **92% positive feedback** and implementing improvement recommendations

Agile & Cross-functional Collaboration:

- Served as **Scrum Master** for two Agile teams (Core Architecture & Documentation), facilitating sprint planning, retrospectives, and daily standups with distributed teams
- Collaborated with Product Owners, Architects, and SMEs to define documentation scope and priorities aligned with product roadmaps
- Managed documentation tasks and defects in JIRA, maintaining transparency and predictability in delivery commitments
- Established clear communication channels with support engineers and customer-facing teams to continuously improve documentation based on real-world usage patterns

Process Optimization & Tooling:

- Configured CI/CD pipelines for automated documentation builds and publishing, integrating with Jenkins for scheduled publication workflows
- Designed SharePoint portal for Documentation Team knowledge sharing, templates repository, and onboarding resources
- Mentored team of 10+ writers on DITA best practices, AI tool adoption, Git workflows, and Agile documentation methodologies

---

Oracle | Senior Information Developer *(Apr 2012 – Apr 2022)*

Bengaluru, Karnataka | On-site: San Francisco, CA

Led documentation projects for Oracle PeopleSoft HCM, CRM, and Enterprise Components, driving innovation in video-based documentation and mobile documentation strategies.

Documentation Strategy & Execution:

- Created comprehensive product documentation for Oracle PeopleSoft suite, including Installation Guides, Configuration Guides, User Guides, Online Help, Troubleshooting Guides, Security Hardening Guides, and Release Notes
- Delivered documentation for 25+ PeopleSoft modules covering Time & Labor, Benefits, Recruiting, Asset Management, Expenses, and Mobile applications
- Developed documentation using User Productivity Kit (UPK) for interactive learning experiences and simulation-based training content

Video Documentation Innovation:

- Pioneered video-based documentation strategy, producing 50+ Feature Overview Videos and Online Help Videos covering complex workflows
- Led complete video production lifecycle: storyboarding, script development, screen recording, editing, and production using Camtasia and Adobe Captivate
- Created video tutorials for Mobile Paycheck, Time & Labor, Recruiting ChatBot, and Digital Assistant applications, significantly improving user adoption rates

Agile Documentation Leadership:

- **Scrum Master** for documentation team, ensuring Agile practices adherence and facilitating cross-team collaboration
- Established documentation estimation framework based on complexity analysis, improving commitment accuracy by **45%**

- Managed documentation migration for **9 products** to DITA XML architecture, identifying tasks, eliminating bottlenecks, and completing ahead of schedule
- Drove FAQ portal creation addressing top 100 customer questions, reducing support ticket volume by **25%**

Technical Expertise & Process Improvement:

- Gained hands-on product knowledge through software installation and configuration on Linux and Windows platforms
- Served as Documentation Tool Administrator for team of 40+ writers, troubleshooting tool issues and maintaining publishing infrastructure
- Implemented single-sourcing strategies optimizing content reuse across multiple delivery formats (PDF, HTML, mobile)
- Enhanced documentation quality through structured review processes and industry-standard style guide compliance

Project Management & Team Leadership:

- **Project Manager** for documentation initiatives, gathering requirements, creating project plans, and coordinating with Program Management for timely delivery
- Mentored team of 10+ writers on FrameMaker, DITA XML, graphics tools, and localization workflows
- Facilitated IPR (Intellectual Property Rights) generation workshops for entire Business Unit
- Coordinated with localization vendors for multi-language documentation delivery in 12+ languages

---

Nokia Siemens Networks | Senior Principal User Assistance Developer *(Jul 2008 – Mar 2012)*

Bengaluru, Karnataka | On-site: Munich & Düsseldorf, Germany

Drove DITA transformation initiatives and established documentation standards for telecom network management solutions serving global enterprise customers.

DITA Implementation & Standardization:

- Led enterprise-wide DITA XML migration project, refactoring legacy FrameMaker content for 15+ telecom products
- Designed and implemented DITA templates for Installation Guides, Security Hardening Guides, and Solution Documentation for Telecom Orchestration products
- Developed content chunking strategies and reuse architecture, reducing duplicate content by **60%**
- **Key User** for DITA toolchain (Oxygen XML, DITA-OT) supporting team of 10+ writers across technical and troubleshooting issues

Cross-functional Collaboration & Stakeholder Management:

- Collaborated with Architecture Teams, Maintenance Managers, and SMEs to devise quality improvements and release process models
- Interfaced with global customers and localization vendors for multi-geography content delivery
- **Scrum of Scrums Master** coordinating documentation activities across 5+ Agile teams
- Participated in all SDLC and DDLC phases, integrating documentation into continuous delivery pipelines

Content Strategy & Portal Development:

- Designed and launched internal Info Portal and Sales Portal, establishing content design standards and navigation architecture
- Created Rich Media Guidelines defining video, animation, and interactive content standards
- Ensured adherence to company Media Style Guide and industry documentation standards (Microsoft Manual of Style, IBM Style Guide)

IMSS (An Integra Group Company) | Senior Technical Writer *(Jan 2006 – Jul 2008)*

Bengaluru, Karnataka

Established documentation practices for emerging IT services company, building documentation team and processes from ground up.

- Created documentation for new applications from scratch, delivering Installation Guides, User Manuals, Administrator Guides, and Quick Reference Guides
- Wrote and edited articles for iNews (internal newsletter), managing editorial calendar and coordinating with designers
- Organized magazine column structure, working with illustrators and layout designers for publication development
- Built documentation templates and style guides establishing foundation for documentation quality standards

---

EDUCATION & CERTIFICATIONS

Degree/Certification	Institution & Year
Programming & Data Science (ongoing)	IIT Madras, 2022 – Present
B.Sc. in Law	University of Kerala, 2002
Master of Journalism & Communication (MJC) *Gold Medalist & University Topper (2000)*	Mahatma Gandhi University, 1998
B.Sc. in Science (Physics, Chemistry, Mathematics)	University of Kerala, 1995

Certifications:

- Certified Scrum Master (CSM)
- SAFe Product Owner/Product Manager (in progress)
- AI & Machine Learning for Documentation (self-paced learning)

AWARDS & RECOGNITION

- **Outstanding Contributor Award** (3x) – Recognized for exceptional delivery in Agile Scrum projects at Oracle
- **University Topper & Gold Medalist** – Master of Journalism & Communication (2000)

- **Best Team Support Award** – DITA migration project excellence at Nokia Siemens Networks (2008)
- **Spot Award** – Best Contributor and Key User for DITA implementation (2010)
- **Thank You Awards** (2x) – DITA implementation leadership and troubleshooting expertise

---

KEY PROJECTS & DOCUMENTATION PORTFOLIO

Video Documentation Projects

Time & Labor, Auto Enrollment Mobile, Paycheck, My Sourcing Events, Simplified Project Analytics, Mobile Technician, Recruiting ChatBot & Text Message, Profile Search Match Compare, Mobile Asset Inspections, Benefits & Time Labor WorkCenter, Expenses for PICASO, Digital Assistant, Application Services Framework, Drop Zones on Fluid & Classic Pages, Time & Labor MSS Pages

Documentation Types Delivered

Product Descriptions, Installation Guides, Upgrade Guides, Configuration Guides, Troubleshooting Guides, Feature Guides, User Guides, Online Help Systems, Security Hardening Guides, Implementation Guides, How-To Guides, Getting Started Guides, Quick Reference Guides, Error Code References, Alarm References, API Documentation, Release Notes, White Papers

---

ADDITIONAL INFORMATION

Professional Background: 5 years of journalism experience prior to technical writing career, bringing storytelling expertise and audience-focused communication skills to technical content development

Languages: English (Native proficiency), Malayalam (Native), Hindi (Professional working proficiency)

Soft Skills: Quick Learner | Team Player | Effective Communicator | Motivator | Collaborative Leader

International Experience: On-site assignments in Oracle San Francisco office and Nokia Munich/Düsseldorf offices, demonstrating cross-cultural collaboration excellence
